

# LEXUS ES

 LEXUS  
EXPERIENCE AMAZING

MODEL YEAR **2019**

# WELCOME TO LEXUS

I would like to personally thank you for your interest in Lexus. You've taken the first step into a world of expressively crafted design, imaginative technology, and unrivaled Guest care. Welcome to a whole new driving experience.

We believe that a vehicle should do more than drive you; it should inspire you and provide the utmost confidence with peace of mind. We want you to embrace your love of driving and to find the Lexus that exhilarates your senses.

In these pages I hope that you will find a hint of the innovation and attention to detail we put into each and every Lexus vehicle. Each detail has been meticulously designed to create a greater more memorable experience for drivers, and passengers alike.

I invite you to explore our current model selection. There is one waiting to be discovered that has been crafted just for you.

**Robert Tsang**  
Director of Lexus Canada

# EXPERIENCE SOMETHING GREATER

From the start, Lexus has redefined luxury. The Japanese principle of Omotenashi brings unrivaled Guest hospitality, with a dedication to treating everyone with warmth, care and respect as if they were a Guest in our own home. While cutting-edge design and exceptional attention to detail show the meticulous craftsmanship of legendary Lexus Takumi Masters. Along with pioneering innovations, impassioned designs and a thirst for enhancing every drive, it's a luxury experience unlike any other.

# ALTER YOUR STATE OF DRIVE

After six generations of success, the all-new, seventh generation Lexus ES is forging a new, more ambitious path. Drivers already familiar with the series will find the all-new ES more spacious, quieter and performance-focused than ever before. For those who want more choice, the ES*h* offers a highly efficient, Self-Charging Hybrid. And for the first time ever, the ES is available in *F SPORT*.

While the Lexus signature grille attracts most attention, available triple-LED headlights display exquisite forms and finesse. However, attention to detail doesn't stop here. Underneath the ES we've created a near flush under-body that drastically improves aerodynamics.

# SOULFULLY DESIGNED, PRECISELY CRAFTED

The all-new ES is an amazing place to be. Welcomed by a driver-focused cockpit, digital gauges and ergonomically superior seating that took three-years of development. Expertly crafted stitching on the seats, steering wheel, instrument panel and gearshift is overseen by our 'Takumi' Master Craftspople. Witness exquisite interior trim that reflects the beauty of Japanese design traditions.

Carefully positioned in your field of vision, you can interact seamlessly with the available Head-Up Display and 12.3-inch Lexus Premium Navigation screen. Also, perfectly located are the 17 available speakers of the Mark Levinson® Premium Surround system that now uses breakthrough PurePlay technology for world-class acoustic clarity.

# POWER AND GRACE

Making your arrivals and departures hard to ignore, the ES boasts a 3.5 L V6 engine that brings power and exhilaration to the forefront. Enhancements in noise reduction and vibration allow you to focus on driving pleasure. And with Drive Mode Select, customizable driving dynamics provide you with more than enough force to leave an impression. An all-new fourth generation Self-Charging Hybrid provides even more power than ever before for those seeking a lighter footprint.

# ATHLETICALLY PERFECTED FORM

For the first time ever, the all-new Lexus ES is offered in exhilarating *F SPORT* form. Showcasing bold styling cues with enhanced steering feel and throttle response through a sport-suspension and Drive Mode Select configuration that offers SPORT S+, along with a rear spoiler and bolstered sport seats, it's made for drivers who seek pure exhilaration.

# UNCOMPROMISING EFFICIENCY

It may be a hybrid, but you wouldn't notice by the way it performs. To power the all-new Lexus ESh, we developed an innovative, fourth generation Self-Charging Hybrid system that delivers outstanding fuel economy combined with a more direct, engaging driving experiences. And with an enhanced powertrain, offering impressive fuel efficiency and clean emissions, you can make a statement with little impact.

# THE ART IN TECH

What's Luxury without the latest technology? The all-new ES is equipped with advanced features to provide you with the utmost comfort and safety. Thoughtfully positioned, you can interact seamlessly with the available 12.3-inch Audio Display screen that features Lexus Enform and Apple CarPlay™ capability. An available 17-speaker Mark Levinson® Premium Surround System<sup>7</sup>, wireless charging, and a fully digital instrument cluster pair innovative technology with an expertly crafted interior for a truly satisfying experience.

## EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

## ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year we will be there to help.

## LEXUS FINANCIAL SERVICES

Come talk to the experts whose exclusive business is financing and leasing Lexus vehicles. You'll find our interest rates fully competitive and our terms flexible - up to 72 months. Our online services conveniently allow you to confirm current rates and receive your credit approval in advance of selecting the Lexus that's right for you. For help, visit your Lexus Dealer or [lexus.ca](http://lexus.ca), or call 1-800-26-LEXUS.

## LEXUS CANADA

Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Some of the photography in this brochure features U.S. or overseas models, shown with optional equipment that may not be available in Canada. Your Lexus Dealer is the best source for up-to-date information.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package. Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely. **1.** The Pre-collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. **2.** Lane Departure Alert is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors. Please see your Owner's Manual for further information. **3.** Automatic High Beam feature can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the highbeams from on to off. Please see your Owner's Manual for details. **4.** Dynamic/Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important cautions and instructions. **5.** Lexus tests certain Bluetooth® capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. **6.** Functioning Satellite Radio requires a monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **7.** Mark Levinson® is a registered trademark of Harman International Industries Inc. **8.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **9.** Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. **10.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your Owner's Manual for further information/warnings. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. **12.** Headphones are for passenger use only. Do not use while operating vehicle. **13.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **14.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. Navigational systems in some vehicles are available with bilingual capability. **15.** The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. Please see your Owner's Manual for details. **16.** All Lexus vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Lexus Dealer. **17.** Whiplash Injury Lessening (WIL) front seats can help reduce the extent of whiplash in certain types of rear end collisions. **18.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. **19.** Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. **20.** Do not rely exclusively on the Rear Cross-Traffic Brake System and Intelligent Clearance Sonar System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual. **21.** The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements.
